

Omnidirectional Antenna

The Omnidirectional Antenna is the ideal choice for communicating with Panasonic's line of VIEW and Power tags. Being horizontally polarized, it is less susceptible to man-made noise and able to take advantage of ground reflection gain which vertical antennas are unable to access.

Radiation Pattern

Physical Specifications

Dimensions (in)	Isosceles triangle: 5 × 6.5 × 6.5 Overall: 5 × 8
Weight	1 lb
Construction	6061-T6 Aluminum, Fiberglass
Attachment	Stainless steel hardware Accommodates 3/4" to 1 3/8" mast
Warranty	1 year

RF Specifications

Polarity	Horizontal
Pattern	Within +/- 1 db omnidirectional
Design Z	50 ohms
Connector	Teflon Type N
